

Welcome to 3MP

Dear new class member,

I am looking forward to teaching you as we embark on the first steps of our Year 3 journey together. I am certainly keen to share with you some of our amazing topics including 'Explore London' where we will identify famous landmarks, investigate the importance of the River Thames and discover other geographical features. We will also be investigating different animal skeletons and compare these to our own skeletons in our science work.

I am sure that you are looking forward to having a restful break including spending time with your family and friends; I will look forward to hearing all about your exciting news when we are back in September. This summer I am going to be visiting New York and spending lots of time with my family in Cornwall!

During the summer holidays it would be brilliant if you could take this opportunity to read as much as you can! Why not have a go at the school's reading challenge 'Caught Reading' and have a picture taken in the most interesting place you can find? Additionally, it would be helpful to continue to practise your times tables and your number bonds so we can make a great start to Year 3 with our Magicians' Guild!

I hope you have an enjoyable and safe break! See you all in the new school year!

Kind regards,

Miss Pollard
