

# Welcome to 3HC

Dear new class member,

Welcome to Westfields Junior School! I hope you are as ready and excited to join the team as I am!

In September we will start our learning journey with our 'Explore London' topic. You will get to find out about interesting London landmarks, learn about why the river

Thames is important and discover other geographical features you may not have known about before! Later in the year we will also be exploring Japan! Not only are we exploring different places, but we will also be learning about Ancient Egypt and the Stone Age!

I hope you have lots of exciting things planned for the holidays. During the Summer break, I am travelling to America and visiting some of the beautiful national parks and some amazing cities like San Francisco! While I am there I plan on relaxing and reading a few books. Remember to read as much as you can over the holidays! Why not take part in our school's 'Reading Challenge' and have a picture taken of you reading in the most interesting place you can find? I cannot wait to see them! Also, Summer is a great time to keep practising your times tables too, ready to start our Magicians' Guild in September!

I hope you all have a wonderful and relaxing holiday and I look forward to hearing about your adventures. I cannot wait to meet you all again in September we are going to have lots of fun on our learning journey together.

Kind regards,

Miss Campbell.
