Ancient Egyptian Creative Day – Thursday 20th May 2021

Dear Parents,

As you are already aware from our topic web, this term as part of our History Curriculum Year 3 is learning all about the Ancient Egyptians. On Thursday 20th May, we have a fantastic Creative Day planned for the children to immerse themselves further to understand the achievements of Ancient Egyptians and how many of these influence our lives today. During this event, the children will participate in a variety of Ancient Egyptian themed activities including:

- Investigating the importance of the River Nile for survival
- Learning how the Ancient Egyptians used hieroglyphics to communicate
- Creating paintings of the pyramids at sunset
- Designing a necklace for a Pharaoh to signify wealth

To help get us in the mood, we would love for the children to dress up in Ancient Egyptian costumes! . We hope this will be stress-free and fun. It does not need to be costly as you might be able to use some old clothes (or a pillowcase!), a belt and jewellery made of pasta, but we will share some ideas at school for anyone who is stuck!

As mentioned in Miss Redman's newsletter, we are no longer asking for contributions at various points throughout the year for these extracurricular activities. Instead, we are requesting a one-off voluntary donation of £10.00 to cover costs of enrichment activities like this one. Many of you have already donated but if you have not and you wish to, this can be paid online via Tucasi or the School Office.

We are all very excited about this upcoming extended curriculum opportunity and as always if you have any questions please do get in touch as soon as possible.

Kind regards,

C. Courtney
